Geom. Angelo Tiballi

GEOMETRA | SITE TECHNICAL COORDINATOR

Rieti, Lazio, Italy · Contact details available on request

PORTFOLIO

PROFESSIONAL PROFILE

Geometra-qualified construction and surveying professional with over 20 years of experience across major civil, road, rail and renewable-energy projects in Italy and Australia. Skilled in site technical coordination, work planning, quality and conformance verification, survey control and digital construction data.

CORE CAPABILITIES

Site coordination • Construction drawings • Set-out and as-built • Conformance verification • QA • 12d Model / Machine Control

PROFESSIONAL EXPERIENCE — AUSTRALIA

REALSURV | Senior Engineering Surveyor / Site Support, Victoria

- Survey and technical support on Barwon Heads Road Upgrade, South Geelong–Waurn Ponds Rail Duplication and Golden Plains Wind Farm.
- Set-out and checks for drainage, pavements, structures, piles and civil works; digital models, QA, as-built records and supervisor liaison.

WEBUILD | Engineering Surveyor — North East Link, Melbourne

- Directly employed by Webuild; geometric control, set-out and construction survey support on major road infrastructure.
- Design model and drawing checks, as-built documentation, QA and daily coordination with engineers and construction crews.

VERIS | Senior Engineering Surveyor — West Gate Tunnel, Melbourne

- Survey support for roadworks, structures and complex construction staging.
- Set-out, levels and tolerance checks, as-built surveys and verification of constructed works.

PSCA PROPERTY SUBDIVISION | Surveyor / Property Development Coordination, Melbourne

- Surveys and technical support through subdivision planning, approvals, design and construction stages.
- Coordinated technical tasks across multiple developments and supported Australian approval and documentation processes.

PROJECT PORTFOLIO — INDIVIDUAL QR CODES

Scan each project QR to view the role, official project photos, videos and source links.

North East Link | Webuild
Set-out, geometric and level checks, as-built surveys, QA and construction-team coordination.
Open role, photos and video →

West Gate Tunnel | Veris
Geometric checks, set-out, as-built surveys and conformance checks across complex stages.
Open role, photos and video →

Barwon Heads Road Upgrade | RealSurv
Survey and verification for pavements, drainage, utilities, bridges and civil works.
Open role, photos and video →

South Geelong – Waurn Ponds Rail Duplication | RealSurv
Set-out, as-built surveys and technical verification in a regulated rail environment.
Open role, photos and video →

Golden Plains Wind Farm | RealSurv
GNSS surveys, turbine foundations, access roads, hardstands and site production support.
Open role, photos and video →

G8 La Maddalena — Arsenale | Lattanzi S.r.l.
Survey set-out, geometric verification and site coordination support.
Open role, photos and video →

Property Subdivision / Land Development | PSCA Property Subdivision
Survey, planning/approvals support and technical coordination across subdivision projects.
Open role, photos and video →

External photos and videos belong to their original publishers and are not photographic proof of the individual tasks performed.

EXPERIENCE IN ITALY AND EUROPE

LATTANZI S.R.L. — ROME | Geometra / Site Technical Coordinator

- Daily work planning and operational coordination with site management, technical staff, contractors and crews.
- Construction drawing verification, progress monitoring, QA documentation and technical site support; contributed to G8 La Maddalena works.

GEOMETRA CARLO GIORGI | Trainee Geometra

- Practical training in technical drafting, surveying, site inspections and design documentation.
- Developed skills in drawing interpretation, construction verification and technical workflow.

TECHNICAL AND MANAGEMENT SKILLS

- Daily coordination with supervisors, crews and subcontractors.
- Geometric and level checks for foundations, drainage, structures, roads and rail works.
- Quality and conformance verification, as-built surveys and project documentation.

SOFTWARE AND EQUIPMENT

12d Model / 12d Field, AutoCAD, Civil 3D, Machine Control data preparation, GNSS/RTK, Trimble and Leica Total Stations, Topcon Hiper VR.

EDUCATION

- Diploma in Building and Construction Management — Western Institute of Technology, Australia.
- Certificate IV in Business and Management — National Technology Centre, Melbourne.
- Geometra Diploma (Italian construction/surveying technical qualification) — Istituto Papa Pio XII, Rome · final grade 100/100.

CERTIFICATIONS AND SAFETY

Construction Induction (White Card) · Rail Industry Worker (RIW) Card · Working at Heights · EWP up to 11 m · Driving licence

PROFESSIONAL STRENGTHS

Combines hands-on civil construction experience with advanced survey and digital modelling skills; bridges construction drawings, field needs and physical conformance verification.
